

QUALITY POLICY STATEMENT

The Company has declared the following Quality Policy Statement as a demonstrated commitment towards achieving aims and goals:

The Management and staff of Metec West Africa Limited strives to be the best provider of Sacrificial Anodes and Impress Cathodic Protection (ICP) Services in the industry by:

- 1 Understanding the present and future needs of our customers and striving to exceed their requirements.
- 2 Maintain an internal employee environment that makes it conducive for most employees to get involved and bring the best out in them so as to meet the company's objectives.
- 3 Build all new activities on a continuous basis into the company's quality management process, interlinking them in such a way so as to improve desired results efficiently and cost effectively.
- 4 Setting measurement standards that are easy to understand, easy to measure that will show continual improvement in the overall performance.
- 5 Provide timely and accurately all data to make effective decisions.
- 6 Maintain a good relationship with accredited suppliers as they form an integral part of the success equation of Metec WA.
- 7 Actively minimizing our environmental impact and integrating sustainable practices to address climate change in our operations
